

HAMILTON COUNTY CITIZEN EVACUATION CHECKLIST

Take Action Now Before Disaster Strikes

☐ Monitor media reports. Watch TV, listen to AM/FM or NOAA weather radio and check the Internet often for official news. Evacuate when advised to do so.

Family Communications Plan Steps:

☐ Make a plan and prepare to evacuate. Plan your evacuation route by using maps and identifying alternative routes. Pets should not be left behind, but understand that only service animals may be permitted in shelters. Plan how you will care for your pets and bring extra food, water and supplies for them.

☐ Develop a family communication plan by designating an out-of-town contact that you can call. Ask them to contact other people who care about you, to let them know your status. Write contact information including name, home, work and cell phone numbers and e-mail address.

Contact information to provide to your out-of-town contact.

Assemble a Disaster Supplies Kit Including the Following Items:

☐ Non-perishable or canned Food

☐ Can opener (non-electric)

☐ Bottled water

☐ Clothing

☐ Rainwear

☐ Bedding

☐ Sleeping bags

☐ Pillows

☐ Battery-operated radio/TV and portable NOAA Weather Radio

☐ Flashlight

☐ Extra batteries

☐ Prescriptions and medications

☐ First aid kit

☐ Car keys

☐ Maps

Special items for:

☐ Infants

☐ Elderly

☐ People with disabilities

Important Documents
(store in a waterproof container):

☐ Driver's license

☐ Social Security card

☐ Proof of residence

☐ Insurance policies

☐ Tax records

☐ Birth and marriage certificates

☐ Deeds

☐ Wills

Remember to make a supplies kit for pets with water, food (with manual can opener for canned food), collars with identification tag, carrier or harness, sturdy leash, medication, name and number of veterinarian, cat litter pan and scooper, pet beds and toys.

Prepare Your Home:

- ☐ Bring inside: lawn furniture, trash cans, hanging plants, outdoor decorations or ornaments, or anything else that can be carried by the weather.
- ☐ Close windows and doors. Note: Tape does not prevent windows from breaking, so taping windows is not recommended.

Evacuate If Necessary:

- ☐ If advised to evacuate, do so immediately. Follow the advice of authorities on which routes to take, which evacuation shelters to seek, and other important directions.
- ☐ Identify ahead of time where to go if told to evacuate. Learn the best evacuation routes to take. Get the telephone numbers of places you may go, as well as a road map in case you need to take alternative or unfamiliar routes if major roads are impassable.
- ☐ If time allows, call or e-mail your out-of-town contact to let them know where you are going and when you expect to get there. Leave a note telling others when you left and where you are going. Check with neighbors who may need a ride or other assistance.

Take Precautions If Emergency Situation Is Weather Related:

- ☐ Listen to local TV, radio, or NOAA Weather Radio to be aware of the emergency situation.
- ☐ Be alert to weather conditions as they can change rapidly. Look for large hail and listen for the sound of an approaching tornado – many say approaching tornadoes sound like a freight train.
- ☐ Pick a safe place in your home where family members and pets can gather if a tornado occurs.
- ☐ Remain indoors, in the center of your home, in an interior closet, bathroom or hallway on the lowest floor, and away from all windows.
- ☐ Know your community's warning system. Outdoor warning sirens are used in Hamilton County.
- ☐ Stay away from floodwaters. If you come upon a flooded road, turn around and go another way. If you are caught on a flooded road and waters are rising rapidly around you, get out of the car quickly and move to higher ground. The floodwaters may still be rising, and the car could be swept away at any moment.
- ☐ Never attempt to drive through water on a road. Water can be deeper than it appears, and water levels can rise very quickly.
- ☐ Most cars can be swept away by less than two feet of moving water. Many flooding deaths are caused by people attempting to drive through floodwaters.
- ☐ Floodwaters can erode roadways, and a missing section of road – even a missing bridge – may not be visible with water running over the area.
- ☐ Avoid walking through floodwaters; two inches of moving water can sweep most people off their feet.
